Description

11/10 - Me: "The best, and only, game I ever made."
5/10 - Wife: "What?"
∞/10 - Mother: "It's cold. Do you need socks?"

An homage to early flash games, Wormhole has one-touch gameplay meant to satiate, not infuriate. It's short. It's easy. The music is OK.

Mostly, you should point and laugh at it with your friends.
